Dear Ms. Hanson:

This responds to your letter of April 23, 1982 regarding the furnishing of more specific information to your office with respect to the physical location of three derailment sites for which we made Superfund notifications. We are unable to provide more specific information with respect to the 1974 derailment, and we are still attempting to meet your request with respect to the 1977 site.

The 1978 derailment occurred about 200 yards east of Burlington Northern's depot at Garrison, Montana. I hope that this is the kind of information you want.

If you have any questions in this regard, please advise.

Very truly yours,

Barry McGrath
Assistant General Counsel
